Part B - Cultivating Talent

Garden Design Brief

Design Brief Information

To enable your garden to be constructed, and subsequently to be assessed and judged, you are required to produce a written brief. This will be used by the Garden Advisory Group (GAG) during the development of their responses to your exhibit and will also be used as the basis of the judging process.

The **brief should** describe and embody:

- The design intention including concepts
- The purpose and function of the garden*
- The assumptions made about the site and its situation
- The reasons for the inclusion of the garden's important elements including information on plants and materials and their design use

Note: For **Concept Gardens** it is the theme or concept that must be communicated, as function may play a secondary role here. Moreover, Concept Gardens do not need to be functional.

Design Brief Information

It is important to complete the below sections to allow the Garden Advisory Group (GAG) to review the application.

REQUIRED: Please complete 1A (Show Garden) **or** 1B (Concept Show Garden)

1 (A) Describe the purpose, theme or concept of your garden, including any intended use. (You may include the practical or functional aspects of the garden here and information on the sustainability or environmental impact of the garden and its materials may also be discussed. (Guide: 100 words)

Nulla ac enim.

1 (B) Describe the theme or concept of your concept garden. Explain your ideas and intentions paying specific attention to the way in which you feel visitors to the show can engage with the space. (Guide: 100 words)

Nulla ac enim.

2. Describe your choice of plants and specific or important associations, explaining how or why they relate to the themes and concepts of your garden. Identify key specimen or structural plants. (Guide: 100 words) Marks will be awarded for the successful use of locally-sourced (Irish-grown) plants

Nulla ac enim.

3. Additional Information if not enough space above.

Nulla ac enim.
